Boston Bombing Evidence Of Staging

We were all traumatized when we heard of the Boston Marathaon Bombing. While in shock we all tuned into the MSM for our mind control programming. They fed us a story and we bought it based on what was reported. It was traumatizing. People at a marathon had their legs blown off and were killed.

The iconic picture of "Jeff Bauman" with both his legs blown off being saved by Carlos, the guy in the cowboy hat, was the big story on all the news stations. It was all fake and scripted crap. You cant survive from a wound like this even laying down on a stretcher.
