Invisible Empire A New World Order Defined

For the first time ever, the secret agenda of the planet's ruthless Super-class is exposed in stark detail. This documentary film chronicles how men of power and influence have worked in stealth for centuries to establish an oppressive world government. Learn how this global oligarchy controls the populace through drug trafficking, money laundering, staged terror attacks, media propaganda and debt. The criminal controllers have successfully dominated the globe and are now in the final phase of consolidating power. Invisible Empire is a damning indictment of the globalists through their own words and documents. Worldwide tyranny isn't coming, it's here. This isn't conspiracy theory, it's conspiracy fact. The New World Order is out in the open- all documented in stunning living color. Unelected bureaucrats are establishing regional unions under one superstate. Witness their plan for a global tax and a cashless surveillance society in which every man, woman and child is micro-chipped at birth. Invisible Empire will be more than just a film-- it is the culmination of years of research by Jason Bermas into the inner-workings and most revealing public statements by the New World Order and the most trusted stewards of their dark vision. 'Invisible Empire' promises to unveil the long-term agenda for world control, just as Fabled Enemies and Loose Change Final Cut forever stripped away the facade of the official story of 9/11 and exposed the dark truth that lies behind.
