

## Home Remedies To Detox And Keep The Life In Your Liver

(NaturalNews) Your liver is your body's primary organ of detoxification; when it's not well, neither are you. The human liver filters drugs, nutrients and toxins from the body, produces bile to help digest fats, and removes toxic bilirubin from the blood. Home remedies, foods and alternative treatments keep your liver happy and keep your body healthy.

### Foods that strengthen the liver

- Organic foods supply nutrients without pesticides and chemicals
- Vegetables such as broccoli and cabbage increase liver enzymes to flush carcinogens
- Beets and carrots promote increased liver function with beta-carotene
- Healthy fats such as olive, coconut and flax seed oils protect against gallstones
- Garlic and onions activate liver enzymes flushing toxins
- Dark chocolate -- 85 percent cocoa or better -- provides antioxidant protection against cirrhosis
- Drink half your weight in ounces daily in filtered, fluoride-free water
- Avocados and walnuts provide glutathione to cleanse toxins
- Apples are high in pectin removing toxins from the digestive tract, protecting the liver
- Two tablespoons of lemon juice daily with water alkalizes the blood and detoxifies
- Non-GMO lecithin supports the liver and gallbladder in fat digestion
- Leafy green vegetables stimulate the flow of bile

### What damages the liver?

Some foods and additives flood the liver with chemicals, interfering with its ability to adequately clear the body of toxins.

- Genetically modified foods (GMOs)
- Trans fats and hydrogenated oils
- High fructose corn syrup
- Sodas loaded with chemicals and artificial sweeteners
- MSG, a food additive and flavor enhancer found in almost all processed foods
- Alcohol, especially if you have [liver](#) disease
- Processed and fast foods devoid of adequate nutrition
- Soy-based foods, unless fermented
- Medicines that can overload the liver causing long-term damage.

## 1 Lifestyle

Lifestyle changes support the digestive system, helping to strengthen liver function and lessen the burden on detoxification.

- Regular exercise stimulates digestion
- Chew food well to release digestive enzymes
- Encourage sweating to remove toxins through the skin, relieving the liver
- Maintain intestinal [health](#) by avoiding toxin buildup in the bowel
- Avoid smoking cigarettes
- Use chemical-free, cleaning and personal care products
- Avoid chemical yard and bug sprays

## Liver treatments

Herbs, supplements and homeopathic remedies repair damage and maintain liver health. Consult a natural health practitioner for dosing guidelines.

- **Milk thistle** fights oxidation and free radicals, reversing cirrhosis
- **Burdock root** cleanses the liver and assists detoxification
- **Green tea** is high in catechins that support liver function
- **Dandelion** is a natural [detox](#) flush
- **Turmeric** reduces inflammation relieving symptoms of cirrhosis
- **Cinnamon** reduces blood levels of glucose and fructose slowing development of fatty liver disease
- **Aloe vera** is a digestive tonic and pain reliever
- **Alpha Lipoic Acid** possesses antioxidant properties; supporting healthy liver function
- **Activated charcoal** protects the liver by absorbing toxins
- **Ayurveda** suggests cleansing the liver with highly alkaline sugarcane or pomegranate juice
- **Mix [turmeric](#) powder with milk** and drink daily
- **Chewing fennel seeds** after meals aids digestion
- **Avoid supplementing with iron** unless under medical supervision

## Homeopathic remedies

- Nux vomica -- Indicated for enlarged livers due to alcohol abuse
- **Carduus marianus** -- Indicated for jaundice, headache, nausea, vomiting and a white tongue. Relieves gallstone colic.
- **Natrum Sulphuricum** -- Dissolves gallstones and relieves hepatitis
- **Ammonium muriaticum** -- Used for pinching, shooting pains in the upper right abdomen
